# HOW YOU CAN AVOID BREAK-INS.

## **Park in a safe & secure spot**

Choose a well-lit, busy area to park your car, ideally in a parking area with security cameras. When leaving your car, be aware of your surroundings and look out for suspicious activity.

## **Lock your doors & windows**

Always make sure your doors are locked and windows are up when you park your car. If your car has an alarm system, make sure it's activated.

## **Take valuables with you**

Keep your valuables out of sight, or better yet, take them with you. This includes wallets, phones, laptops, and other electronics.
